

MULTI-PERIL CROP INSURANCE

Crop and Livestock Income Protection

The Crop and Livestock Insurance Protection (CLIP) program provides additional revenue coverage for policyholders with two or more livestock or crop commodities covered under Revenue Protection (RP) policies.

An indemnity is triggered when the operation's overall revenue falls below the amount guaranteed at the selected CLIP coverage level due to an insured cause of loss.

With CLIP, policyholders can...

- 1. Get the most for their money.** CLIP can insure a farmer's own bushels at a lower cost than traditional Revenue Protection coverage.
- 2. Customize their insurance.** CLIP coverage can be tailored to a producer's specific needs, and may be combined with endorsements like ECO, MCO and HIP-WI.
- 3. See their claims paid quickly.** CLIP indemnities are paid as soon as harvest is done and the claims adjustment is complete, so your policyholders won't need to wait for the following year to be paid.

AgriSompo has led the industry in making this valuable product available to our partner agents, and CLIP is already fully supported by the AgriNet system.

About AgriSompo

AgriSompo combines crop and livestock insurance with expert industry knowledge to deliver proactive nationwide risk management and exceptional customer service.

Coverage levels

CLIP offers coverage up to 85% of the combined insurable value of the covered crop and livestock.

Availability

CLIP is available in select counties in Alabama, Arkansas, Colorado, Georgia, Kansas, Louisiana, Mississippi, Nebraska, North Dakota, Oklahoma, South Dakota, Tennessee and Texas.

Sales closing dates

The sales closing date (SCD) for CLIP will follow that of the underlying Revenue Protection policy with the earliest SCD.
